

# Sunrise Medical Zippie® IRIS<sup>™</sup> Manual Wheelchair

Manufacturer:  
**Sunrise Medical**

The newly upgraded Zippie® IRIS features the revolutionary rotation-in-space design and provides a smaller rotational arc ideally matching the pediatric user's centre of gravity. The Zippie® IRIS now offers the latest in multiple tilt ranges, swing-in swing-out hangers, and easy adjustments making it the premiere rotation-in-space chair in its class. The result: an astoundingly lightweight, durable, and easily transportable pediatric wheelchair.

# Sunrise Medical Zippie® IRIS™ Manual Wheelchair

Sunrise Medical

## FEATURES:

- Pediatric Arc is small which matches the paediatric user's centre of gravity to ensure ease of use
- Rotation-in-space rotates the seat frame around the user's center of gravity ensuring a smooth rotation
- 40° Rotational Rocker Arm has a compact design for users who do not require a greater tilt range
- Swing-in/Swing-Out Footrests are excellent for confined spaces and are ideal for reduced hand dexterity
- Offers the aesthetically pleasing Quickie style height adjustable armrests featuring a contoured armpad
