Sensa Line supports

Right for any situation:
Protecting the body while staying mobile, requires targeted support. Innovative Sensa Line supports help you stay active and mobile. They let you move confidently and securely under strain without restrictions, and gently support the healing process by helping to reduce pain.

Right for all parts of the body:
Whether you require support for your hand, knee, ankle, spine or elbow, Sensa Line has the right support for you. Sensa Line fits perfectly and is very skin-friendly. Antibacterial fibres integrated into the knitted fabric effectively inhibit the growth of bacteria to reduce odour formation.

With the Sensa Line supports, you get the best possible fit for every situation and every part of the body.

Sensa Line. Fits me perfectly.

Support exactly where you need it
The 3D flat-knitted fabric moulds to natural body contours – creating specific compression zones.

No constriction
Elastic edges prevent constriction.

Technogel® Pads – Gentle massage for affected areas
Extremely soft, elastic material allows user to massage affected areas.

Antibacterial – odour-inhibiting – skin-friendly
Antibacterial fibres integrated into fabric, creating excellent wearing comfort. Inhibits the growth of bacteria and noticeably reduces odour formation.

Breathable
Elasticity of fibres absorb moisture quickly and transport it to the surface of the flat-knitted fabric, where it evaporates quickly.

Our supports are free of natural latex and can be machine washed at 30°C. The antibacterial effect is retained even after multiple washing cycles.

Supports
Malleo Sensa

**Features:**
- Feeling of instability
- Injuries (sportive, post-traumatic, or chronic)
- Joint swellings (osteoarthrosis or arthritis)
- Soreness/protective
- Ligament insufficiency

**Effects:**
- Tendomyopathies
- Joint swellings (osteoarthritis or arthritis)
- Feeling of instability

**Indications:**
- Reduced compression zones (heel & in-step)
- Can be worn comfortably inside shoe
- Natural movement is not restricted
- Functional improvement of the ankle joint
- Relieves pain due to integrated, anatomical Technogel® pads
- Promotes targeted compression for resorption of edemas, hematomas and effusions
- Supports sensorimotor functions of the ankle joint, relieves pain, and activates muscle stabilization

Genu Sensa

**Features:**
- Supports senso-motor functions of the knee joint, relieves pain, and activates muscle stabilization
- Promotes targeted compression for resorption of edemas, hematomas and effusions
- Relieves pain due to integrated, anatomized "Technogel" pads in the medial and lateral areas
- Functional improvement of the ankle joint

**Effects:**
- Provides targeted compression of the elbow region for the resorption of edemas, hematomas and effusions
- "Technogel" pads enhance the micro massage effect on the joint stabilization in the lumbar spine region
- Promotes sensorimotor functions and activates muscle stabilization

**Indications:**
- Tennis elbow (gripper’s elbow)
- Injuries (post-traumatic, post-traumatic or chronic)
- Joint swellings (osteoarthrosis or arthritis)
- Tendomyopathies and other soft tissue diseases

Lumbo Sensa

**Features:**
- The lumbar support is available in several colors
- "Technogel" pads in the medial and lateral areas
- Reduces pain and improves muscular stabilization

**Effects:**
- Provides targeted compression of the elbow region for the resorption of edemas, hematomas and effusions
- "Technogel" pads enhance the micro massage effect on the joint stabilization in the lumbar spine region
- Promotes sensorimotor functions and activates muscle stabilization

**Indications:**
- Tennis elbow (gripper’s elbow)
- Injuries (post-traumatic, post-traumatic or chronic)
- Joint swellings (osteoarthrosis or arthritis)
- Tendomyopathies and other soft tissue diseases

**Indications:**
- Acute and chronic irritations (edovaginitis, tendomyopathy, acute or chronic effusions and arthralgia)
- Post-operative and post-traumatic irritations
- Arousal effects
- Rheumathoid arthritis
- Corpse funnel syndrome
- Degenerative wrist problems (ulnar tunnel)
- Feeling of instability (wrist unbalancing)
