Motion Kids

Pediatric Rehab Solutions

About Motion Kids

We understand that our young clients have specialized needs that require the expertise that we can offer as Canada's leading pediatric mobility and accessibility provider. At Motion, our goal is to find the best equipment that optimizes function, mobility and safety for the child, their parents and their caregivers.

Motion offers a wide range of mobility and accessibility solutions for kids, including:

- Wheelchairs
- Strollers
- Gait Trainers
- Stenders
- Adaptive Bicycles
- Bathing & Toileting Aids
- Lifting & Transfer Devices
- Seating & Positioning
- Beds & Accessories

For more information about our products and services, contact the Motion location nearest you.

We look forward to working with you to make life accessible.

Wheelchairs

Pediatric wheelchairs are available in a wide range of styles and sizes and can be customized to optimize functionality. They can be self-propelled, propelled with assistance or powered for enhanced independence.

TiLite Twist

Designed from the ground up for kiddos, the Twist encourages exploration, independence and playfulness. There are no parts or growth kits to buy. Instead, the Twist grows with you.

Sunrise Medical Zippie Iris

The Zippie Iris rotation-in-space wheelchair offers a superior combination of positioning, maneuverability and increased portability with the XLOCK® folding crossbrace option.

Permobil M300 PS Jr Power Wheelchair

The PS Junior is virtually unlimited in its adjustability. Features include: expandable seat, Climbing and Traction Link System (Catlink), comfortable Aeron leg rests and many customizable features.

Ki Mobility Little Wave Clik

The Little Wave Clik easily adjusts to promote proper positioning and wheel access for active independence and mobility.

We understand that our young clients have specialized needs that require the expertise that we can offer as Canada's leading pediatric mobility and accessibility solutions provider.

At Motion, our goal is to find the best equipment that optimizes function, mobility and safety for the child, their parents and their caregivers.

Gait trainers are a wheeled device that assist children with walking, whether they're learning to walk for the first time or for long-term support.

R82 Mustang Gait Trainer

The Mustang is an anterior/posterior gait trainer that provides positioning and support for children as they learn the skills of stepping and walking. It offers flexibility, growth and ease of use to suit changing needs.

R82 Crocodile Posterior Walker

The Crocodile frame allows freedom of movement and facilitates walking in the upright position. Adjustable handles can be adapted to a position close to the child's body to provide maximum support and stability.

Rifton Pacer Gait Trainer

The Pacer gait trainer is designed to help children learn to walk. The Pacer provides support during gait training and requires little to no weight-bearing for children with limited trunk and leg muscles.

Seating & Positioning

Seating and positioning equipment helps to ensure that the user is comfortable, provides postural support and reduces the risk of skin breakdown.

Protac SenSit Chair

Ideal for children with mental or motor agitation, the SenSit chair is filled with balls to stimulate the senses, soothe and promote a feeling of security and concentration for the user.

Freedom Concepts Chill-Out Chair

Known for its deep-V foam design, the Chill-Out features a defined reclined angle that provides overall comfort while keeping the user secure and properly positioned for maximum engagement and participation.

Rifton Activity Chair

The Activity Chair is perfect for feeding, speech therapy, active learning and for children with sensory processing challenges. Versatility for all shapes and sizes, all conditions and needs, it's perfect in both a classroom setting and at home.

Pediatric standers allow children to stand unassisted, which is known to provide both physical and psychological benefits.

R82 Caribou Stander

The Caribou supports the prone or supine standing position. It can switch from a horizontal to a vertical position and is designed to accommodate a wide range of users; including spasticity, contractions and circulatory deficiencies.

Bantam EasyStand

The EasyStand is a sit to stand stander that can combine the option of supine positioning to create infinite positioning possibilities from 90-90 sitting, fully vertical standing, full supine lying and anywhere in between.

Leckey Squiggles

The Squiggles provides postural support and comfort for children with a wide range of needs. The fun and colourful design is suitable for use as a home chair, school chair or with a buggy base.

Synetik Vertiflex Stander

Vertiflex multi and single position standers can be configured using an array of accessories based on the needs of the user. Their functional design allows for highly precise adjustments that ensure optimal use and comfort.

Travel & Play

Equipment such as strollers, adaptive bicycles, travel seats, and car seats provide enhanced stability, comfort and back support for children to get active and enjoy the outdoors.

Hoggi Bingo Tilt Stroller

The Bingo offers incredible versatility, adaptability and portability. Features include: tilt mobility base, reclining backrest, seating shell and adjustable foot rest, growth adjustments and more.

Freedom Concepts Discover Tricycle

The Discovery allows children with limited mobility to move and explore their environment at their own pace while developing independence and having fun.

Firefly GoTo Seat

The GoTo is a lightweight, portable postural support seat that lets children sit on most standard chairs at home, in restaurants and the classroom, and can even be used for travel.

Defender Reha Car Seat

The Defender Reha provides 360° impact protection along with added head, trunk and thigh supports, unique accessories and many positioning options.

Home & Bedroom

Safety beds and lifting devices provide added comfort, support and security in the home for children, their parents and their caregivers.

Beds By George Adaptive Beds

Beds By George are uniquely made, offering the safety and security of a crib-like environment with the complete adjustability of a homecare bed. Choose from a variety of features to meet your specific needs.

Drive Gravity 7 Pressure Mattress

The Gravity 7 is a high quality therapeutic foam mattress that provides pressure redistribution and shear/friction reduction and includes a removable multi-stretch cover.

Hoyer Advance Lift

The Advance is compact, yet able to perform an outstanding range of transfers. Its unique tapered leg design allows the lift to get even closer to the widest of obstacles.

Arjo Maxi Sky 400 Ceiling Lift

The Maxi Sky is a portable and easy to use system that allows a single caregiver to carry out transfers via a hand-held control unit, without any stress or strain, and with no manual lifting.

Products that support the complex challenges of bathing and toileting, whether physical or cognitive.

Raz-CAT Commode Chair

The easy-to-clean and compact-sized Raz-CAT mobile shower commode tilts up to 40 degrees to provide extra pressure reduction and comfort.

Rifton Wave Bath Chair

The Wave bath chair, available in two types of quick-drying fabric, provides safety and comfort for both the bather and caregiver. Tub stand or rolling shower stand options are available.

Firefly Splashy & Splashy Big

The Splashy is a portable water seat that makes bath time fun and playing at the beach a possibility. Lightweight and supportive, it's suitable for kids and teenagers with a max. user weight of 55 kg/121 lbs.

Rifton Hygiene & Toileting System

The Hygiene & Toileting System was designed to meet numerous challenges with one simplified device. Both toileting and bathing can be achieved and the system includes options for on, over, and off toilet applications.

Our Story

Motion is Canada's leading provider of comprehensive and customized mobility and home accessibility solutions for a wide variety of clients from children to seniors. Serving clients since 1985, it is Motion's mission to make life accessible for everyone with solutions that are delivered professionally, consistently and with integrity.

Attentive, proactive and respectful, Motion's knowledgeable experts work collaboratively to understand our clients' needs so they can lead their most vibrant lives.
