

BRIDGING THE GAP:

INTEGRATING WOUND CARE AND MOBILITY PRESCRIPTION FOR PRESSURE INJURY PREVENTION

Join Linda Norton and the Seating and Wheelchair teams for an interactive, full-day workshop to bridge the gap between disciplines in relation to pressure injury prevention. Through a combination of case-based learning, hands-on experiences, and interdisciplinary dialogue, participants will develop a shared understanding of how forces such as pressure, friction, and shear act on the body – and how evidence-based seating, mobility, and wound management practices can work together to reduce harm.

Participants will engage in experiential labs to feel the difference between pressure distribution and offloading, learn how to identify early signs of skin compromise in all skin tones, and collaborate on real-world problem-solving scenarios that cross traditional professional boundaries.

September 9, 2026 8:30am-4:30pm
Parkwood Institute Main Building - Main Auditorium (B2-109)
550 Wellington Rd, London

Presented by:

Linda Norton M.Sc.CH, Ph.D, OT Reg. (Ont.)

Paulo DaRosa RN, BScN, NSWOC, MCIScWH, WOCC(C)

In conjunction with the: [Parkwood Adult Wheelchair and Seating Team & Spinal Cord Seating Team](#)

For speaker biographies, please email learning@motioncares.ca

Please RSVP to the workshop using the following link by August 26, 2026:

A flyer with the full description of the workshop and references is available by emailing learning@motioncares.ca. Motion is an IACET accredited provider of CEUs. This workshop is eligible for 0.7 accredited CEUs. For more information about CEUs and how to obtain them, please email learning@motioncares.ca

SPEAKER'S BIOS

Linda Norton M. Sc.CH, Ph.D, OT Reg. (Ont.)

Linda is an Occupational Therapist who is passionate about the prevention and management of pressure injuries; and the provision of seating and mobility devices for clients with complex needs.

She has completed the International Interprofessional Wound Care Course through the University of Toronto, a Master's in Community Health focusing on pressure injury prevention and a Ph.D. in Occupational Science focusing on chronic wounds.

Linda is a co-director and faculty member of the International Interprofessional Wound Care Course, is a faculty member of the Advanced Health Care Practice – Wound Healing program at Western University and is the Director, Learning and Clinical Education for Motion.

Paulo DaRosa RN, BScN, NSWOC, MCIScWH, WOCC(C)

Paulo Da Rosa is a Clinical Nurse Specialist, certified Nurse Specialized in Wound, Ostomy and Continence (NSWOC) at St. Joseph's Health Care in London, Ontario. He graduated from the University of Western Ontario with a BSc in Nursing, completed his wound, ostomy and continence education through the Wound, Ostomy, Continence Institute (2008), and then completed his Master of Clinical Sciences in Wound Healing at the University of Western Ontario in 2010.

Paulo has published in Advances in Skin & Wound Care, as well as in the International Wound Journal. Paulo was a board member of NSWOCC (previously CAET) as the Lead for Informatics and Research, as well as President of the association. Paulo currently provides consultation on acute/chronic wounds and ostomy care at Parkwood Institute, providing support to the other sites within St. Joseph's Health Care London. He is the chair of an interdisciplinary team guiding wound care guidelines and policy development at Parkwood Institute. Paulo has presented at several conferences and events in wound and ostomy care. He has a significant role in wound care education and mentoring of students at St. Joseph's Health Care London. Paulo collaborates with other clinicians in London and surrounding areas, including LHSC, to discuss issues in wound and ostomy care, in order to attain continuity and consistency in practice.
